ABSTRACT

This book presents the facts, history, names, and dates behind 1,250 major accomplishments in science and technology. Each topic is covered in understandable paragraphs of 150 to 600 words and is intended for students, librarians, science instructors, and the general public. Four indexes provide access to the entries by year, name of discoverer or inventor, nationality of participant or country where the event took place, and broad subject category. (Author/PR)
